Outstanding
2012 HSC results at Auburn Girls High School

Zehra Al Sultany Dux 2012

The HSC class of 2012 achieved band six grades in Ancient History, Biology, Business Studies, English, Legal Studies, Modern History, Mathematics and Persian. Most courses showed an overall improvement with above state average results achieved in a range of subjects including Biology, Chemistry, 2 Unit Mathematics, Advanced English. These outstanding results were a continuation of a trend of consistent improvement in HSC results at Auburn Girls that has lasted for ten years.

Auburn Girls High School would especially like to congratulate Zehra Al Sultany, Dux of 2012, for her outstanding HSC results. Zehra gained the top band six grade in five of her subjects and was recognised in the Board of Studies ‘All Rounders’ list – those students scoring above 90 in at least 10 units of study. Zehra results allowed her to receive an ATAR of over 98 and she is currently studying a combined Law/ Advance Science degree at the University of NSW.

The outstanding HSC results and excellent ‘value-added’ performance from Years 10 to 12 is a wonderful reflection on the great effort of the students in Year 12 2012. It is also a testament to the excellent commitment of many teachers at Auburn Girls. Through the Senior Study program, after school Homework Centre and out-of-hours subject based tutorial programs, teachers have supplemented the classroom-based learning of their students. Careful analysis of techniques used and results achieved will enable teachers to further refine their support for girls striving to achieve their best in the HSC at Auburn Girls High School.
